## Profile

As a Junior Architect with 1 year of professional experience, I possess a strong foundation in architectural design principles, project coordination, and software proficiency. I demonstrate exceptional attention to detail, creative problem-solving abilities, and a strong commitment to sustainable design practices. With effective communication skills and a collaborative mindset, I have successfully contributed to a variety of projects across residential, commercial, and public sectors. I am eager to further my architectural career by taking on new challenges and opportunities for growth.

## Employment History

### Junior Architect at LS3P Associates, NC

May 2023 - Present

- Designed and coordinated the development of a 50,000 square foot mixed-use building, successfully collaborating with a team of engineers, contractors, and clients, resulting in a project completion three months ahead of schedule.
- Managed the renovation and expansion of a historic 30,000 square foot commercial property, preserving its original architectural character while modernizing the building to meet current codes and accessibility standards, increasing its market value by 25%.
- Assisted in the creation of sustainable design solutions for a LEED-certified office complex, resulting in a 30% reduction in energy consumption and earning the project a LEED Gold certification.
- Developed 3D models and renderings for a variety of projects, improving client presentations and enabling more efficient design revisions, leading to a 20% increase in client satisfaction ratings.

### Architectural Intern at Clark Nexsen, NC

Jul 2022 - Mar 2023

- Completed the design and construction documents for a \$1.5 million commercial facility, resulting in a 10% reduction in construction costs and a 5% increase in energy efficiency.
- Successfully managed the coordination of engineering and architectural teams for a \$3 million residential project, leading to a 15% reduction in timeline and a 20% decrease in budget overages.
- Assisted in the development of sustainable design strategies for a LEED-certified office building, contributing to a 25% reduction in energy consumption and a 30% reduction in water usage.
- Developed and presented a comprehensive ADA compliance report for a historic building renovation, which led to the implementation of necessary accessibility improvements and ensured compliance with all relevant regulations.

## Certificates

### LEED Green Associate (LEED GA)

Jul 2021

### Autodesk Certified Professional: Revit for Architectural Design

Feb 2020
