I am a dedicated and motivated Part I Architectural Assistant who recently graduated from The University of Manchester. I would like to find a practice where I can use my design and technical skills and keep learning from team members. I have a keen interest in working on higher education and mixed-use schemes and enjoy the challenge each project brings.

WORK EXPERIENCE

Internship

Architects Studio in Manchester | Feb - May 2022

- I joined a 15-strong architectural practice that focuses on large-scale Higher Education, Mixed-Use and Residential schemes
- Projects I supported are Stage 3 Higher Education scheme in Manchester (value £1m) and a Stage 3/4 Mixed-Use Commercial/Residential scheme in Preston
- I helped produce planning applications and technical packages and attended design meetings
- I was able to strengthen my Revit and Photoshop skills
- I learned the importance of building strong relationships between the client, stakeholders and contractors
- collaborated with the team and discussed possible issues and how we can resolve them

Volunteer

The University of Manchester | April 2019 - April 2021

- I was part of the Social Club and helped organise monthly events
- It helped me to improve my organisation, communication and problem-solving skills
