Professional Experience

Entry-Level Database Administrator

NorCal Insurance Inc., San Francisco, CA | May 2021 – Present

- Coordinate with IT infrastructure and database development teams to develop, configure, and maintain a 24/7 Microsoft SQL Server environment for a life insurance company with over 400K customers
- Oversee security protocols for client databases, ensure compliance with data protection and privacy requirements, and identify opportunities to improve functionality
- Support the development of database governance procedures, create backup and disaster recovery protocols, and ensure data integrity and security

Database Administrator Intern

Google Inc., Sunnyvale, CA | May 2020 – May 2021

- Provided support to technical teams in developing, implementing, and optimizing database systems and creating security protocols for data protection
- Developed stored procedures and disaster recovery processes, conducted performance tuning, and monitored database performance to support a 99.99% server uptime
